

Safe-D Adjustable XLPE/SWA Cable Clips

For 10-15mm cables

For 16-21mm cables

For 22-26mm cables

970°C

2h

18th
Edition
Compliant

Provides a 3mm stand off from the surface

Simply wrap around the cable, perfect for tight spaces

Secure cable with locking tab

Centralised base fixing, gives a neat appearance to installation

For direct-to-surface applications, Safe-D Cable Clips secure cables having diameters ranging between 10mm and 26mm.

The one-piece, labour-saving and stylish design requires only one screw-fixing through base, before the cable is placed in the saddle. The arm can then be simply rolled over the cable, with the end tab passing via a choice of slots... then folded to lock.

- Select the most appropriate slot, then fold-down the tab to achieve a tight fitment around the cable
- Oval shape of base hole enables the Safe-D Cable Clip to be adjusted left or right-side
- 3mm stand-off above base
- Type 1 for cables (or pipes) between 10-15mm diameters
- Type 2 for cables (or pipes) between 16-21mm diameters
- Type 3 for cables (or pipes) between 22-26mm diameters
- >1200°C melting point
